

Thursday, August 28, 2014

August 28

Room 01 (Conference Center, 1F, Main Hall) 8:40 - 9:20

Chairman's Lecture

Moderator: **Seiichi Takenoshita** (*Department of Organ Regulatory Surgery, School of Medicine, Fukushima Medical University*)**CL-1 Trace of one year in 2013 and plans in 2014***Department of Molecular Pharmacology and Oncology, Graduate School of Medicine, Gunma University*

Masahiko Nishiyama

Room 01 (Conference Center, 1F, Main Hall) 9:20 - 10:00

Keynote Lecture 01

Moderator: **Shigetoyo Saji** (*Department of Surgery, Kizawa Memorial Hospital*)**KL1-1 Renovate Japanese Medical Systems with New Therapeutics Creation***Nikkei Business Publications, Inc.*

Mitsuru Miyata

Room 01 (Conference Center, 1F, Main Hall) 10:00 - 11:40

Symposium 01

Molecular Target Therapy : Where Are We Going?

Moderators: **Yutaka Kougo** (*Dept. of Gastroenterol and Hematol / Oncol, Asahikawa Medical University*)**Hiroyuki Konno** (*Hamamatsu University School of Medicine*)**S1-1 Strategy for developing targeted cancer therapy***Laboratory of Genome Biology, Department of Biological Science & Technology, Faculty of Industrial Science & Technology, Tokyo University of Science*

Yoshiji Fujita

S1-2 Economic evaluation of targeted cancer therapy*School of Pharmacy, International University of Health and Welfare*

Shunya Ikeda

S1-3 K supercomputer decreases the cost of new drug development*Department of Clinical System Onco-Informatics, Graduate School of Medicine, Kyoto University*

Yasushi Okuno

S1-4 Practical Application of iPS Cells to Drug Discovery Research*Integrated technology Research Labs, Shonan Incubation Lab, Pharmaceutical Research Division, Takeda Pharmaceutical Company Ltd.*

Atsushi Nakanishi

S1-5 Introduction of the Fukushima project of organizing a support center for medicine-related industries*Division of Gene Expression Analysis Translational Research Center, Fukushima Medical University*

Shinya Watanabe

Room 01 (Conference Center, 1F, Main Hall) 14:50 - 15:30

Award Lecture

Moderator: **Masahiko Nishiyama** (*Department of Molecular Pharmacology and Oncology, Graduate School of Medicine, Gunma University*)**NK Basic and clinical research for the development of minimally invasive and individualized medicine in urological cancer***Department of Urology, Graduate School of Medical Sciences, Kyushu University*

Seiji Naito

Room 01 (Conference Center, 1F, Main Hall)

15:30 - 16:00

Congress President Lecture**Moderator:** Ikuro Konishi (*Department of Gynecology and Obstetrics, Graduate School of Medicine, Kyoto University*)**PL-1 Review of my strategy for cancer treatment including development of medical-industry cooperation as a Fukushima model***Department of Organ Regulatory Surgery, Fukushima Medical University*

Seichi Takenoshita

Room 02 (Conference Center, 3F, 301+302)

10:00 - 12:00

Symposium 02**Personalized Cancer Treatment Update****Moderators:** Kosei Hirakawa (*Surgical Oncology, Graduate School, Osaka City University*)Susumu Kanazawa (*Radiology, Medical School, Okayama University*)**S2-1 Focal Therapy -current status and future perspectives-***Urology, Graduate School of Medical Science, Kyoto Prefectural University of Medicine*

Tsuneharu Miki

S2-2 New departure of interventional radiology in cancer treatments*Department of Radiology, School of Medicine, Mie University*

Koichiro Yamakado

S2-3 Cutting edge of Interventional Endoscopy in pancreaticobiliary diseases*Department of Gastroenterology and hematology, Tokyo Medical University*

Takao Itoi

S2-4 Breaking new ground in the treatment of lower rectal cancer and gastric peritoneal dissemination with hyperthermia*Department of Oncology Clinical Development, Graduate School of Medicine, Gunma University*

Takayuki Asao

S2-5 Cryoablation for hepatocellular carcinoma*Department of Hepatobiliary & Pancreatic Surgery, Faculty of Medicine, Tokyo Medical and Dental University*

Minoru Tanabe

S2-6 Advances in local treatment with combined modalities improve cancer survival*Clinical Professor of Radiation Oncology, The University of Texas MD Anderson Cancer Center, U.S.A.*

James D. Cox

Room 03 (Conference Center, 3F, 303+304)

10:00 - 12:00

Symposium 03**Basic and Practical Reports in Preventive Medicine: Risk Assessment and Inspective Studies (Japanese Cancer Association Sponsored)****Moderators:** Koichi Hirata (*Department of Surgery, Surgical Oncology & Science, Sapporo Medical University*)Hitoshi Nakagama (*Research Institute, National Cancer Institute*)**S3-1 SNP-based risk estimation for prostate cancer and personalized prostate cancer screening***RIKEN Center for Integrative Medical Sciences*

Hidewaki Nakagawa

S3-2 Cancer risk diagnosis and prevention using epigenetic alterations*Division of Epigenomics, National Cancer Center Research Institute*

Toshikazu Ushijima

S3-3 Provision for Hereditary Breast and Ovarian Cancers in Japn*Div. of Breast Surgical Oncology, School of Medicine, Showa University*

Seigo Nakamura

S3-4 Efficacy of HPV vaccines and strategies to overcome adverse reactions*Chemotherapy Center, Hospital, Yokohama City University*

Etsuko Miyagi

Room 03 (Conference Center, 3F, 303+304)

16:00 - 18:00

Organ Specific Symposium 01**Current Issues on Anticancer Drug Exposure - Protecting Patients and Healthcare Workers from the Incidents of Anticancer Drug Exposure -****Moderators:** Hirokazu Nakanishi (*Pharmaceutical Sciences, Doshisha Women's College of Liberal Arts*)Toru Hashida (*Department of Pharmacy, Kobe City Medical Center General Hospital*)**OS1-1 Looking back over the history of the measures to prevent occupational exposures to cytostatics.***Studies of Medical System Management, Graduate School of Medicine, Nagoya University*

Shinichi Sugiura

OS1-2 Countermeasures to reduce occupational exposure to anticancer drugs during preparation*Kobe City Medical Center West Hospital*

Koji Hama

OS1-3 Countermeasures to reduce occupational exposure to anticancer drugs after preparation*Saitama Prefecture Cancer Center*

Toshiaki Nakayama

OS1-4 Prevention from exposure of anti-cancer drugs to patients and the family*pharmacy, Ise red cross hospital*

Tomohiro Miyake

OS1-5 The importance of awareness and staff training for safe handling of hazardous drugs*Division of Nursing, The Cancer Institute Hospital*

Sumiyo Iwamoto

Room 06 (Conference Center, 3F, 315)

10:00 - 12:00

International Symposium 01 (Princess Takamatsu Cancer Research Fund Sponsored)**The Future of Cancer Therapy****-Molecular Imaging of Cancer: Current Status and Future Perspective-****Moderators:** Hiroshi Fukuda (*Department of Nuclear Medicine and Radiology, Tohoku Pharmaceutical University*)Tsuneo Saga (*Molecular Imaging Center, National Institute of Radiological Sciences*)**TIS1-1 Imaging of proliferation, differentiation, and metastasis of cancer using PET/CT or SPECT/CT***Division of Nuclear Medicine, Department of Radiology, National Center for Global Health and Medicine*

Kazuo Kubota

TIS1-2 ⁶⁴Cu-ATSM as a theranostic agent targeting cancer stem cell-rich regions within tumor*Molecular Imaging Center, National Institute of Radiological Sciences*

Yukie Yoshii

TIS1-3 Diagnostic and therapeutic roles of somatostatin analogs in patients with gastroenteropancreatic neuroendocrine tumors*Department of Diagnostic Imaging and Nuclear Medicine, Graduate School of Medicine, Kyoto University*

Yuji Nakamoto

TIS1-4 Developing Pet Radiopharmaceuticals in a Highly Regulated Environment*Diagnostic Imaging, Nuclear Medicine, The University of Texas, MD Anderson Cancer Center, U.S.A.*

Carlos Gonzalez-Lepera

Room 06 (Conference Center, 3F, 315)

16:00 - 18:00

International Symposium 02 (Princess Takamatsu Cancer Research Fund Sponsored)**The Future of Cancer Therapy****-Cancer Stem Cell Research in Digestive Organs-****Moderators:** Masaki Mori (*Department of Surgery, Graduate School of Medicine, Osaka University*)Issay Kitabayashi (*Division of Mematological Malignancy, National Cancer Center Research Institute*)**TIS2-1 Critical pathways for stem cell maintenance and therapeutic strategy in acute myeloid leukemia***Division of Mematological Malignancy, National Cancer Center Research Institute*

Issay Kitabayashi

- TIS2-2 Innovative Medicine for Gastrointestinal Cancer Stem Cells**
Cancer Profiling Discovery, Graduate School of Medicine, Osaka University Hideshi Ishii
- TIS2-3 Defining the role of stem cell niche regulation in colon cancer using genome engineering**
Department of Gastroenterology, School of Medicine, Keio University Toshiro Sato
- TIS2-4 Analyses of mechanism of epithelial tissue homeostasis in the gastrointestinal tract, and dysregulated maintenance during cancer development by the multicolor lineage tracing method**
Department of Stem Cell Pathology, Kansai Medical University Hiroo Ueno
- TIS2-5 Dclk1, a specific marker for tumor stem cells in digestive organs**
Department of Gastroenterology and Hepatology, Graduate School of Medicine, Kyoto University Hiroshi Seno

Room 09 (Conference Center, 4F, 416+417)

10:00 - 12:00

Organ Specific Symposium 02**Up-to-Date Malignant Melanoma Treatment Strategy**

Moderators: Naoya Yamazaki (*National Cancer Center Hospital*)
 Yoshio Kiyohara (*Dermatology Division, Shizuoka Cancer Center*)

- OS2-1 Anti-PD-1 antibodies for the treatment of advanced melanoma**
Niigata Cancer Center Hospital Tatsuya Takenouchi
- OS2-2 A new era of immunotherapy has come? The advent of Ipilimumab**
Department of Dermatology and Plastic Surgery, Kumamoto University Satoshi Fukushima
- OS2-3 BRAF inhibitor**
Dermatology, School of Medicine, Shinshu University Hisashi Uhara
- OS2-4 BRAF inhibitor in combination with MEK inhibitor in BRAF V600-dependent advanced melanoma**
Dermatologic Oncology, National Cancer Center Hospital Arata Tsutsumida
- OS2-5 Prospects for the role of MEK inhibitors in the treatment of advanced melanoma: especially for NRAS mutant cutaneous melanoma**
Department of Dermatology, Kansai Medical University Taiki Isei

Room 09 (Conference Center, 4F, 416+417)

16:00 - 18:00

Symposium 04**PM2.5 and Related Issues****Moderators:** **Shinji Wakamatsu** (*Atmospheric Environmental Sciences Research Laboratory, Faculty of Agriculture, National University Corporation Ehime University*)**Kazuichi Hayakawa** (*Laboratory of Hygiene Chemistry, Faculty of Pharmaceutical Sciences, Institute of Medical, Pharmaceutical and Health Sciences, Kanagawa University*)**S4-1 Recent phenomena of high PM2.5 concentrations in Japan***Atmospheric Environmental Sciences Research Laboratory, Faculty of Agriculture, National University Corporation Ehime University*

Shinji Wakamatsu

S4-2 Long-range trans-boundary air pollution such as PM2.5 in East Asia and its origin*Atmospheric Environment Study Group, National Institute of Advanced Industrial Science and Technology*

Naoki Kaneyasu

S4-3 Smoking and PM2.5*Director, Hyogo Prefectural Amagasaki Hospital / Hyogo Prefectural Tsukaguchi Hospital*

Hisayoshi Fujiwara

S4-4 PM2.5 Problem from the View Point of Carcinogenic Polycyclic Aromatic Hydrocarbons*Laboratory of Hygiene Chemistry, Faculty of Pharmaceutical Sciences, Institute of Medical, Pharmaceutical and Health Sciences, Kanazawa University*

Kazuichi Hayakawa

Room 10 (Conference Center, 4F, 418)

10:00 - 12:00

Organ Specific Symposium 03**Up-to-Date Thyroid Cancer Treatment -Thyroid Cancer in Children and Adolescents-****Moderators:** **Akira Miyauchi** (*Department of Surgery, Kuma Hospital*)**Susumu Yokoya** (*Department of Medical Subspecialties, National Center for Child Health and Development*)**OS3-1 Clinical and morphological comparative characteristics of radiogenic and non-radiogenic papillary thyroid carcinoma in Belorussian patients aged less than nineteen years old***Department of Oncology, Belarusian Medical Academy of Post-Graduate Education, Belarus*

Yuri E. Demidchik

OS3-2 Video-assisted endoscopic thyroid surgery in Republic of Belarus*Department of Endocrine Surgery, Nippon Medical School*

Kazuo Shimizu

OS3-3 Clinical features and patient's outcome of pediatric thyroid cancer*Department of Surgery, Noguchi Thyroid Clinic and Hospital*

Shinya Uchino

OS3-4 Childhood Thyroid Cancer*Department of Surgery and Cancer, Imperial College London, UK*

Geraldine Thomas

OS3-5 Treatment of childhood thyroid cancer in Fukushima*Dept. of Thyroid and Endocrinology, Fukushima Medical University*

Shinichi Suzuki

Room 10 (Conference Center, 4F, 418)

16:00 - 17:30

ECCO/JSCO Joint Symposium**Chemoradiation in Gastrointestinal Cancer: Pros and Cons in Western and Eastern Countries****Moderators:** **Yuko Kitagawa** (*Surgery, School of Medicine, Keio University*)**Peter Naredi** (*Sahlgrenska University Hospital*)**ECJS-1 Neoadjuvant treatment prevalence and "High Quality" surgical strategy in gastric cancer: possible explanations for apparent contradiction in Eastern and Western Guidelines***MiniInvasive Surgical Oncology, Surgery, A.Gemelli Gen. Hospital-Catholic University of Rome, Italy*

Domenico D'Ugo

ECJS-2 **Current status of chemoradiation therapy for esophageal cancer in Japan**
Surgery, School of Medicine, Keio University Yuko Kitagawa

ECJS-3 **Pros and cons of radiotherapy in rectal cancer treatment**
Dept. of Surgical Oncology, Leiden University Medical Center, The Netherlands Cornelis van de Velde

ECJS-4 **Chemoradiotherapy for Rectal Cancer: Pros and Cons in Western and Eastern Countries**
The Dept. of Surgical Oncology, Faculty of Medicine, The University of Tokyo Toshiaki Watanabe

Room 11 (Conference Center, 4F, 419)

10:00 - 11:00

JSCO-supported Research

Moderators: Yu Sakata (Internal Medicine, Misawa City Hospital)

Hiroyasu Makuuchi (Department of Surgery, Tokai University School of Medicine)

SR-1 **Multicenter phase II study of combination therapy with oral S-1 plus cisplatin in elderly patients with advanced gastric cancer**
Gastrointestinal Medical Oncology Division, National Cancer Center Hospital Satoru Iwasa

SR-2 **Randomized phase II study comparing Tmab + wPTX with wPTX alone for patients with HER2-positive advanced gastric cancer refractory to Tmab combined with fluoropyrimidine and platinum**
Division of Hematology / Oncology, Kyushu Kousei Nenkin Hospital Akitaka Makiyama

SR-3 **Phase II trial of Panitumumab and S-1 combination therapy for metastatic colorectal cancer beyond second line therapy**
Surgery and Science, Graduate School, Kyushu University Yoshihiko Maehara

SR-4 **Phase II Study of adjuvant therapy after hemihepatectomy for biliary cancer**
Department of Surgery, Osaka University Shogo Kobayashi

SR-5 **Randomized control study to evaluate the efficacy of adjuvant androgen deprivation therapy after rotational IMRT in patients with high risk prostate cancer**
Department of Radiology, Hospital, The University of Tokyo Kenshiro Shiraishi

Room 12 (Conference Center, 5F, 501)

10:00 - 10:30

Keynote Lecture 02

Moderator: Takao Isogai (Fukushima Medical University)

KL2-1 **Analysis of genome structural variation in the germ line and in somatic tissue**
Program on Genetics of Brain Function, Department of Psychiatry and Behavioral Sciences, Stanford University School of Medicine, U.S.A. Alexander E. Urban

Room 12 (Conference Center, 5F, 501)

10:30 - 11:30

International Session 1

Biomarker of GI Tract

Moderators: Mitsuru Sasako (Department of Surgery, Hyogo College Of Medicine)

Hiroto Hasegawa (Department of Surgery, School of Medicine, Keio University)

ISO1-1 **CXCR4 and c-Met signaling and might be a candidate target for the treatment of scirrhous gastric cancer**
Department of Surgical Oncology, Graduate School, Osaka City University Haruhito Kinoshita

ISO1-2 **Nuclear HSP110 expression is associated with chemo-sensitivity in gastric cancer patients**
Department of General Surgical Science, Graduate School, Gunma University Akiharu Kimura

- ISO1-3 Prognostic Impact of Autophagy Substrate p62 Expression in Gastric Cancer**
Department of Surgical Oncology, Graduate School of Medicine, Osaka City University Go Masuda
- ISO1-4 LOXL2 might be a promising target for the treatment of gastric cancer**
Surgical Oncology, Graduate School of Medicine, Osaka City University Hiroaki Kasashima
- ISO1-5 Clinical significance of high risk macroscopic appearance (Type IV and large Type III) in advanced gastric cancer with standard treatment (curative surgery and S1 administration)**
Surgery, Kitasato University East Hospital Keishi Yamashita
- ISO1-6 Somatic mutation profiling in the RAS-RAF signal cascade: promising predictive markers for extra-hepatic spreading in colorectal liver metastases**
Gastroenterological Surgery, Graduate School of Medicine, Dentistry and Pharmaceutical Sciences, Okayama University Yuzo Umeda

Room 12 (Conference Center, 5F, 501)

16:00 - 18:00

Symposium 05**Essence of Cancer Therapy in Elderly Patients**

Moderators: Junji Kato (*Department of Medical Oncology and Hematology, Sapporo Medical University*)
 Yoshihiro Torimoto (*Oncology center, Hospital, Asahikawa Medical University*)

- S5-1 Treatment strategy for geriatric oncology patients**
Division of Medical Oncology, Hematology and Infectious Diseases, Faculty of Medicine, Fukuoka University Kazuo Tamura
- S5-2 Principles of pharmacotherapy for elderly patients**
Department of Geriatric Medicine, Graduate School of Medicine, The University of Tokyo Masahiro Akishita
- S5-3 Comprehensive geriatric assessments in elderly cancer patients**
Medical Oncology, Faculty of Medicine, Kyorin University Fumio Nagashima
- S5-4 Treatment issues in elderly cancer patients-from a view point of psychiatric symptoms**
Department of Psychiatry and Cognitive-Behavioral Medicine, Graduate School of Medical Sciences, Nagoya City University Tatsuo Akechi
- S5-5 Cancer Therapy in Elderly patients: The USA experience**
Senior Adult Oncology Program, Moffitt Cancer Center, U.S.A. Lodovico Balducci
- S5-6 Necessity of the Integrated Community Care System**
Medical Economics Division, Health Insurance Bureau, Ministry of Health, Labour and Welfare Masaharu Tanto

Room 13 (Conference Center, 5F, 502)

10:00 - 12:00

Organ Specific Symposium 04**Up-to-Date Gastric Cancer Treatment**

Moderators: Yoshihiro Kakeji (*Division of Gastrointestinal Surgery, Department of Surgery, Graduate School of Medicine, Kobe University*)
 Atsushi Sato (*Medical oncology, Graduate of Medicine, Hirosaki University*)

- OS4-1 Function-preserving surgery for gastric cancer**
Division of Gastro-intestinal Surgery Department of Surgery, Graduate School of Medicine, Kobe University Satoshi Suzuki
- OS4-2 Surgical intervention for advanced gastric cancer**
Shizuoka Cancer Center Masanori Terashima
- OS4-3 Present Status and Future Perspective of Image-based Navigation for Gastrointestinal Surgery**
Department of Surgery, GI Center, Fukuoka City Hospital Morimasa Tomikawa
- OS4-4 The Present and Future of individualized therapy for advanced or recurrent gastric cancer**
Cancer Center, Hospital, Hokkaido University Yoshito Komatsu

OS4-5 Chemosensitivity test for gastric cancer*Department of Surgery and Science, Graduate School, Kyushu University*

Eiji Oki

OS4-6 New targeting & biomarker based therapy in gastric cancer*Exploratory Oncology Research & Clinical Trial Center Department of Experimental Therapeutics, National Cancer Center Hospital East*

Toshihiko Doi

Room 13 (Conference Center, 5F, 502)

16:00 - 18:00

Panel Discussion 01**Role of Plastic and Reconstructive Surgery in Cancer Treatment, Present and Future Perspective****Moderators:** Tomoo Kosuge (*Hepatobiliary and pancreatic surgery division, National Cancer Center Hospital*)Minoru Sakuraba (*Department of Plastic and Reconstructive Surgery, National Cancer Center Hospital East*)**PD1-1 The expectation from head and neck surgeon to a reconstructive surgeon***Head and Neck Surgery, Miyagi Cancer Center*

Kazuto Matsuura

PD1-2 The future role of reconstructive surgery in head and neck cancer*Department of Plastic and Reconstructive Surgery, Graduate School of Medicine, Dentistry and Pharmaceutical Sciences, Okayama University*

Yoshihiro Kimata

PD1-3 Breast surgeon's expectancy of plastic surgeons for improvement of aesthetics of breast cancer surgery*Department of Breast Surgical Oncology, St. Luke's International Hospital*

Hiroshi Yagata

PD1-4 Personalized reconstruction after breast cancer operation*Department of Breast Regenerative Medicine, Graduate School of Medicine, Faculty of Medicine, Osaka University*

Kenji Yano

PD1-5 Possible collaboration between colorectal surgeon and plastic surgeon for cancer treatment*Department of Surgical Oncology Colorectal and Pelvic Surgery Division, National Cancer Center Hospital East*

Masaaki Ito

PD1-6 Collaboration with plastic surgery provides safe and success in general and gastroenterological surgery*Division of Plastic and Reconstructive Surgery, Shizuoka Cancer Center Hospital,*

Masahiro Nakagawa

PD1-7 Diagnosis, Treatment, and Reconstruction of Bone and Soft Tissue Sarcoma*Orthopaedic Surgery, Hospital, Okayama University*

Toshifumi Ozaki

PD1-8 Current role of reconstructive microsurgery in the treatment of musculoskeletal tumors*Plastic and Reconstructive Surgery, National Cancer Center Hospital*

Shimpei Miyamoto

Room 14 (Conference Center, 5F, 503)

10:00 - 12:00

Organ Specific Symposium 05**Up-to-Date Lung Cancer Treatment****- Research for Sensitivity Prediction and Novel Strategy in Therapy -****Moderators:** Akihiko Gemma (*Department of pulmonary medicine and oncology, Nippon Medical School*)Ichiro Yoshino (*General Thoracic Surgery, Graduate School of Medicine and School of Medicine, Chiba University*)**OS5-1 Recent advance in the genetic mutation analysis***Department of Respiratory Medicine, Saitama Medical University*

Koichi Hagiwara

OS5-2 Current status of clinical development of new Molecular Targeted Agents*Department of Medical Oncology, Faculty of Medicine, Kinki University*

Kazuhiko Nakagawa

OS5-3 Omics and Predictive Biomarker Research in Lung Cancer*Department of Pulmonary Medicine and Oncology, Graduate School, Nippon Medical School*

Masahiro Seike

OS5-4 Perspectives of particle radiotherapy (proton, carbon ion) for lung cancers*GHMC, Heavy Ion Medical Center, Gunma University*

Tatsuya Ohno

- OS5-5 Treatment of brain metastases from non-small cell lung cancer in the era of EGFR-TKI
~The effect and safety of TKI alone without radiation therapy~**
Division of Neurological Surgery, Chiba Cancer Center Toshihiko Iuchi

Room 14 (Conference Center, 5F, 503) 16:40 - 18:10

Organ Specific Symposium 06

Up-to-Date Surgical Treatment for Urologic Cancer

Moderators: Masato Fujisawa (*Urology, Graduate School of Medicine, Kobe University*)
Chikara Oyama (*Urology, Graduate of Medicine, Hirosaki University*)

- OS6-1 Robot-assisted radical cystectomy and intracorporeal robot-assisted U-shape ileal neobladder reconstruction**
Urology, Graduate of Medicine, Hirosaki University Takuya Koie
- OS6-2 Robot-assisted partial nephrectomy**
Urology, School of Medicine, Kobe University Hideaki Miyake
- OS6-3 The investigation of robot-assisted radical prostatectomy in the comprehensive constitutional framework**
Urology, Hospital, Tottori University Takehiro Sejima
- OS6-4 Robotic-Assisted Laparoscopic Radical Prostatectomy for Localized Prostate Carcinoma**
Urology, School of Medicine, Fujita Health University Ryoichi Shiroki
- OS6-5 Surgical Treatment for Urologic Cancer**
Urology, Center for Robotic Surgery, Roswell Park Center Institute, U.S.A. Khurshid A. Guru

Room 15 (National Convention Hall of Yokohama, 2F) 10:00 - 12:00

Team Medicine in Personalized Treatment 1

From the Viewpoints of Supportive Pharmacotherapy

Moderators: Tomohiro Terada (*Department of Pharmacy, Hospital, Shiga University of Medical Science*)
Tomoaki Yoshimura (*Department of Pharmacy, Ogaki Municipal Hospital*)

- ST1-1 Multidisciplinary team approach to maximize the safety of cancer therapy**
Department of Pharmacy, Hospital, Kyushu University Hiroaki Ikesue
- ST1-2 Personalized medicine of antiemetic therapy developed by pharmacists**
Department of Pharmacy, The Cancer Institute Hospital Kenichi Suzuki
- ST1-3 The management of adverse reactions induced by molecular targeted agents: Pharmaceutical care to support effective and safe cancer chemotherapy**
Department of Pharmacy, Kobe City Medical Center General Hospital Noriaki Kitada
- ST1-4 The role of pharmacists on palliative care consultation team**
Department of Pharmacy, Hospital, Nippon Medical School Yuya Ise

Room 15 (National Convention Hall of Yokohama, 2F) 16:00 - 18:00

Team Medicine in Personalized Treatment 2

From the Point of Nursing

Moderators: Hiroko Komatsu (*Faculty of Nursing and Medical Care, Keio University*)
Miho Kurihara (*Nursing Department, National Cancer Center Hospital East*)

- ST2-1 Familial cancer syndrome and Nursing**
Adult Nursing, Faculty of Nursing, Toho University Yoshie Murakami

ST2-2	Clinical trials and nursing <i>School of Nursing, Jichi Medical University Hospital</i>	Izumi Kohara
ST2-3	The role of nurses in supportive care <i>Shizuoka Cancer Center</i>	Kumi Endo
ST2-4	The Nursing Coordination that connects the cancer resources <i>Palliative Care Partners, Co. Ltd.</i>	Megumi Umeda
ST2-5	The role of the medical cooperation by the nurse for cancer patients <i>Kanagawa Cancer Center</i>	Mari Watanabe

Room 18 (Annex Hall, 2F, F203+F204) 10:00 - 12:00

Organ Specific Symposium 07

Up-to-Date Malignant Brain Tumor Treatment

Moderators: Toshihiko Wakabayashi (*Neurosurgery, Graduate School of Medicine, Nagoya University*)

Soichiro Shibui (*Department of Neurosurgery and Neuro-Oncology, National Cancer Center Hospital*)

OS7-1	Therapeutic neuro-oncological strategy based on progress of morphological diagnosis for CNS brain tumors <i>Department of Clinical Oncology, Hospital, Hiroshima University</i>	Kazuhiko Sugiyama
OS7-2	Next-Generation Clinical Trials for Intracranial Germ Cell Tumor <i>Division of Neuro-Oncology, Children's Cancer Center, National Center for Child Health and Development</i>	Keita Terashima
OS7-3	Theranostics of brain tumors based on comprehensive genome and epigenome landmarks <i>Department of Neurosurgery, School of Medicine, Nagoya University</i>	Atsushi Natsume
OS7-4	Management of drug therapy for gliomas according to the genetic profiles <i>Neurosurgery, School of Medicine, Fujita Health University</i>	Yuichi Hirose
OS7-5	Novel strategies in radiation therapy for brain tumors <i>Department of Radiology, Graduate School of Medical Sciences, Nagoya City University</i>	Yuta Shibamoto
OS7-6	Developing new treatment strategies for malignant brain tumors - insights from the latest cancer stem cell research <i>Division of Gene Regulation, School of Medicine, Keio University</i>	Satoru Osuka

Room 19 (Annex Hall, 2F, F205+F206) 10:00 - 12:00

Organ Specific Symposium 08

Up-to-Date Pancreatobiliary Cancer Treatment

Moderators: Bunzo Nakata (*Surgery, Kashiwara Municipal Hospital*)

Taketo Yamaguchi (*Chiba Cancer Center*)

OS8-1	Multidisciplinary treatment of locally advanced unresectable pancreatic cancer <i>Surgical Oncology, Osaka City University Graduate School of Medicine</i>	Ryosuke Amano
OS8-2	Surgical strategy of advanced gallbladder cancer <i>Division of Surgical Oncology, Department of Surgery, Graduate School of Medicine, Nagoya University</i>	Takashi Mizuno
OS8-3	Current strategies for resected biliary tract cancers <i>Department of Hepatobiliary and Pancreatic Oncology, National Cancer Center Hospital East</i>	Izumi Ohno
OS8-4	Clinicopathological aspects of intraductal papillary neoplasm of the bile duct <i>Institute for Integrated Medical Sciences, Tokyo Women's Medical University</i>	Toru Furukawa
OS8-5	The importance of endoscopic ultrasonography in the diagnosis of pancreatobiliary cancer <i>Gastroenterology and Hepatology, Graduate School of Medicine, Osaka University</i>	Minoru Shigekawa

Poster (Exhibition Hall, B+C)

17:30 - 18:30

International Poster

- ISP-1 Chemoradiotherapy as a Definitive Therapy in Esophageal Cancer, a Therapeutic Alternative**
Surgery, Oncology, Bombay Hospital & Breachcandy Hospital, India Praful B. Desai
- ISP-2 Phase I clinical study of multiple epitope peptide vaccine combined with chemoradiation therapy in unresectable esophageal cancer patients**
Surgery, School of Medicine, Teikyo University Hisae Iinuma
- ISP-3 Harvesting lymph nodes in gastric cancer surgery: a prospective randomized controlled study**
Department of Gastrointestinal Surgery, Kanagawa Cancer Center Toru Aoyama
- ISP-4 Post operative S-1 chemotherapy prolonged survival of patients with advanced gastric cancer**
Department of Surgery, Division of Surgical Oncology, Faculty of Medicine, Tottori University Kader A.T.M.Abdul
- ISP-5 A phase II study of biweekly paclitaxel and S-1 (SPA) as second-line chemotherapy in patients with fluoropyrimidine-oxaliplatin pretreated advanced gastric cancer**
Division of Cancer Center, Department of Medical Oncology, The first Affiliated Hospital, School of Medicine, Zhejiang University, China Yulong Zheng
- ISP-6 Neo-Adjuvant Chemotherapy of S-1+Fractional CDDP for Stage II and Stage III Gastric Cancer**
Gastrointestinal Surgery, The University of Tokyo Hospital Sachiyo Nomura
- ISP-7 Complete response to regorafenib against liver and peritoneal metastases of gastrointestinal stromal tumor (GIST)**
Department of Medical Oncology, Tonan-Hospital Hiromitsu Kitayama
- ISP-8 Updated results of the SOFT study: A randomized phase III trial of SOX plus bevacizumab versus mFOLFOX6 plus bevacizumab in patients with metastatic colorectal cancer (mCRC)**
Northern Yokohama Hospital, Showa University Yasutaka Takinishi
- ISP-9 Implication of universal molecular screening for diagnosing Lynch syndrome in newly diagnosed colorectal cancer in Japan**
Lower Intestinal Surgery, College Hospital (Nishinomiya), Hyogo College Of Medicine Nagahide Matsubara
- ISP-10 Laparoscopic major hepatectomy of colorectal metastases in elderly patients: a single-center case-matched study**
Department of Digestive Diseases, Institut Mutualiste Montsouris, University Paris V, France Takeo Nomi
- ISP-11 Surgery for metastatic tumors to the pancreas**
Department of Gastroenterological Surgery, School of Medicine, Kumamoto University Daisuke Hashimoto
- ISP-12 De novo malignancies after adult living donor liver transplantation**
Surgery, School of Medicine, Keio University Masahiro Shinoda
- ISP-13 Novel navigation technique for superselective TACE to obtain 3D-safety margin for HCC**
Radiology, Nara Medical University Toshihiro Tanaka
- ISP-14 Serum levels of circulating myeloid-derived suppressor cells (MDSC) are effective as a prognostic indicator in patients with gastrointestinal cancer**
International Medical Center, Saitama Medical University Masahiko Shibata
- ISP-15 The diagnosis value of CT guidance Hookwire positioning thoracoscopic surgery for solitary pulmonary nodule**
Thoracic Surgery, Jilin Province Tumor Hospital, China Chunyi Jia
- ISP-16 Feasibility study of personalized peptide vaccination for advanced non-small cell lung cancer patients who failed in two or more regimens**
Department of Immunology and Immunotherapy, School of Medicine, Kurume University Teppei Yamada
- ISP-17 The satisfaction and the aesthetics after the endoscopic breast surgery**
Department of Breast Surgery, Graduate School, Nippon Medical School Koji Yamashita

- ISP-18** **Withdrawn**
- ISP-19** **The Impact of Chemotherapy in the Diminishing Role of Axillary Lymph Node Dissection (ALND) in Breast Cancer**
Surgery, Oncology, Breach Candy Hospital & Saifee Hospital, India Ratna S. Parikh
- ISP-20** **Retrospective Analysis of Prognosis in Preoperative Systemic Therapy Patients of Breast cancer**
Gunma Prefectural Cancer Center Tomomi Fujisawa
- ISP-21** **Evaluation of Eribulin treatment in metastatic breast cancer patients**
Endocrine Surgery, Tokyo Women's Medical University Akiko Sakamoto
- ISP-22** **The paclitaxel bevacizumab combination for advanced and metastatic luminal type breast cancer - a single institute experience**
Nahanisi Clinic Yoshihiko Kamada
- ISP-23** **Risk estimates for deleterious BRCA1/2 mutations in an Okinawan population using the KOHCal table v.s. the Myriad table**
Nahanisi Clinic Miwa Arakaki
- ISP-24** **Can TRUS guided transperineal biopsy be performed safely? : Prospective evaluation of the adverse events**
Chiba Cancer Center Takeshi Namekawa
- ISP-25** **Nadir PSA level and time to PSA nadir following primary androgen deprivation for prostate cancer as independent prognostic factors in J-CaP database**
Integrative Cancer Therapy and Urology, College of Medical, Kanazawa University Yasuhide Kitagawa
- ISP-26** **Micro CT analysis for novel xenograft model of bone metastatic prostate cancer**
Department of Urology, Okayama University Graduate School of Medicine, Dentistry and Pharmaceutical Sciences Takeshi Hirata
- ISP-27** **A randomized control study to evaluate the efficacy, safety and QOL in low-dose Bacillus Calmette-Guerin instillation therapy for non-muscle invasive bladder cancer**
Department of Urology, Graduate School of Medical Sciences, Kyushu University Akira Yokomizo
- ISP-28** **Functional oral rehabilitation using dental implants in oral tumor patients**
Department of Oral and Maxillofacial Surgery, Faculty of Medicine, Shimane University Joji Sekine
- ISP-29** **High Throughput and Efficient Formation of 3D-Multicellular Tumor Spheroids of Soft Tissue Sarcomas; Implications for Silencing Mechanisms of Pathogenic Fusion Gene Expression**
Department of Molecular Medicine and Pathophysiology, Osaka Medical Center for Cancer and Cardiovascular Diseases Hisako Yamamura
- ISP-30** **Expression of IL-23 gene in murine colon carcinoma Colon26 cells transduced with recombinant retrovirus and influencing its radiosensitizing in vitro and vivo**
Radiation Oncology, Zhejiang Cancer Hospital, China Wei Feng
- ISP-31** **Analysis of potent inhibitor for drug-tolerant colony formation of human cancer cell lines**
Department of Surgery, Iwate Medical University Satoshi Nishizuka
